

THE URBAN DISTRICT COUNCIL OF LITTLEBOROUGH

ANNUAL REPORT

of the

MEDICAL OFFICER OF HEALTH

and

SENIOR PUBLIC HEALTH INSPECTOR

for the

YEAR 1968

Medical Officer of Health

A. NELSON PICKLES, M.B., Ch.B., D.P.H.

Senior Public Health Inspector

THOMAS BRUCE, A.R.S.H., M.A.P.H.I.

URBAN DISTRICT OF LITTLEBOROUGH

ANNUAL REPORT

of the

MEDICAL OFFICER OF HEALTH

for the year ended 31st December 1968.

To the Chairman and Members of the
Littleborough Urban District Council.

Ladies and Gentlemen,

I have the honour to submit to you my sixth Annual Report on the Health and Mortality of your District for the year 1968.

POPULATION

The estimated population (as supplied by the County Council) of the District is 10,950 as compared with 10,800 for last year.

AREA

The District extends over an area of 7,855 acres, and is situated on the borders of Lancashire and Yorkshire at a height ranging from about 440 to 1,550 feet above sea level.

The climate is somewhat damp but bracing.

The chief industries include the manufacture of cotton and woollen goods and synthetic fibres, leather tanning, iron turning and founding, oil and fat refining, dyeing and finishing, making of bread and confectionary, glue manufacture and fibre glass products, general joinery and building contractors.

VITAL STATISTICS

The number of deaths in the district in 1968 was 145, 76 males and 69 females, which is equivalent to a death rate of 13.2 per 1,000 of the estimated population.

The number of births was 213, 102 males and 111 females, which is equivalent to a birth rate of 19.5.

There were 3 still-births, 2 males and 1 female, giving a rate per 1,000 total (live and still) births of 14.

The births exceeded the deaths by 68 and the birth rate exceeded the death rate by 6.3. The mean birth rate for the past five years was 4.88 above the mean death rate.

For 1968 the birth rate was 19.5 and the death rate 13.2 and the averages for the past five years were:- Birth rate 19.2 and the death rate 14.32.

From these figures it will be seen that the birth rate is 1.4 above the previous year and 1.3 above the average for the past five years, and the death rate 1.3 below the previous year and 1.12 below the average.

For further particulars see tables in the Report.

INFANT DEATHS

There have been 3 deaths under one year of age, 2 male and 1 female, which is equivalent to a rate of 14 per 1,000 live births, and 2 deaths and a rate of 9 for 1967.

From these figures it will be seen that the rate is 5.0 above the previous year and .32 below the average.

There has been one death under 4 weeks of age equivalent to a death rate of 5 per 1,000 live births, as compared with no deaths and a nil rate for 1967.

TUBERCULOSIS DEATHS

Nil.

CANCER DEATHS

33

MATERNAL MORTALITY

Nil.

INFECTIOUS DISEASES

1968. 1967.

Tuberculosis.	-	-
Scarlet Fever.	-	-
Diphtheria.	-	-
Erysipelas.	-	-
Ophthalmia Neonatorum.	-	-
Para Typhoid Fever.	-	-
Acute Poliomyelitis.	-	-
Puerperal Pyrexia.	-	-
Acute Pneumonia. (primary and influenzal.)	-	-
Acute Encephalitis.	-	-
Meningococcal Infection.	-	-
Small-pox.	-	-
Measles.	2	7
Whooping Cough.	1	1
Food Poisoning.	1	-
Dysentery.	-	1
Viral Meningitis.	1	-

One point again worthy of comment is the fact that 1968 was the twenty-second year in succession in which no cases of Diphtheria were notified. Such a long spell without the occurrence of a case is sufficient evidence of the value of Diphtheria immunisation. In order to maintain this record, it is essential that parents should continue to have their children immunised. It is also again pleasing to report that no cases of Scarlet Fever were notified during 1968, for this eleventh year in succession.

MEASLES

2 cases occurred, both of which were treated at home. There were no deaths.

TUBERCULOSIS

There were no deaths from respiratory Tuberculosis during the year.

There were 3 new additions to the register, (1 "formal addition" and 2 "transfers" from other Districts). The occupations of the new additions were - 1 Retired, 1 Fish Fryer and 1 Warehouseman.

The Public Health (Tuberculosis) Regulations 1952 no longer require a Medical Officer of Health to keep a register of Tuberculosis notifications, but the Ministry of Health urges that registers should continue to be kept. A register is therefore maintained of all cases notified and statements forwarded to the County Medical Officer of Health of all admissions to and removals from the register.

The Number of cases on the Tuberculosis Register, old and new in the district at the beginning of the year was 59, 49 respiratory and 10 non respiratory. 3 cases were added to the register, all being respiratory, 3 respiratory cases were removed from the register, leaving a total of 59 cases 49 respiratory and 10 non-respiratory at the end of the year. Of the 3 cases removed from the register, 2 recovered and 1 transferred.

The body of the report contains details of the work of the department during the year and the report of the Senior Public Health Inspector sets out details of the sanitary circumstances of the district.

My thanks are due to the staff of the Department for their good work throughout the year.

I am,

Ladies and Gentlemen,

Yours obediently,

A. NELSON PICKLES.

Medical Officer of Health.

LITTLEBOROUGH URBAN DISTRICT COUNCIL
SENIOR PUBLIC HEALTH INSPECTOR'S REPORT

For the year 1968

To the Medical Officer of Health of the
Littleborough Urban District Council.

Sir,

I have pleasure in submitting my fifth Annual Report from the year 1968, in accordance with Article 25 of the Public Health Officers Regulations 1959. Comment is made on several aspects of the work but other details, statistics etc., have been included in your report to the County Medical Officer of Health, a copy of which is attached to this report.

A summary sheet is also attached showing details of the visits and inspections made during the year.

HOUSING

No new houses were built primarily to rehouse tenants of existing unfit houses.

The erection of 80 dwellings (36 two bedrooned bungalows, 22 two bedrooned houses, 16 three bedrooned houses, 4 four bedrooned houses and 2 two bedrooned plus 2 shops) have been completed.

Private development has continued during the year and at 31st December, 1968, one hundred and thirty-one were under construction, and ninety-nine houses have been completed.

Improvement of older houses has also continued and discretionary grant work has been completed at 14 houses and standard grant work has been completed at 38 houses.

Houses in the New Road, Hollingworth Fold, New Road & Leach's Passage, Sun Street and Egerton Street areas, involving thirty-one houses and one house and shop, were represented to the Committee as being unfit for human habitation. The representations being accepted and confirmed by the Council, were submitted to the Ministry of Housing and Local Government.

WATER SUPPLY

The District is supplied in most parts by the Rochdale Corporation Waterworks (from April 1968, the West Pennine Water Board are responsible for the supply of the water) and the number of houses connected to the mains is 4,067.

During the year the private water supplies gave rise to concern, and it was necessary for water trailers to be provided in certain areas.

With regard to the Schofield Street/Schofield Place and Summit area, Statutory Notices were served on the owners requiring them to carry out works to connect the properties to the Public Mains, and subsequently the work was carried out in default.

The private supply to Greenhill failed for a period of time, but even when the supply functions contamination is evident. There is also the problem that these houses are not served by a sewer.

At Limefield, the supply was poor in quantity and the unprotected source of this private supply is of concern.

Approaches have been made to the Ministry of Housing and Local Government regarding the possibility of grant aid for the provision of sewerage and mains water supply at Limefield and Greenhill.

On occasions when poor supplies were found to be attributable to the reduction of the bores of the private portions of the pipework (pressure in the public portion being satisfactory) then use was made of an acid cleansing method of the affected pipes. The results of this work were satisfactory.

Sampling of both public and private supplies was continued during the year, the bacteriological samples of the public supply being satisfactory.

The results of bacteriological samples of private supplies were unsatisfactory. If private supplies did not look satisfactory, and if they were not pleasant to use for washing purposes then there would be a public out-cry against such supplies.

Although there is no record of an outbreak of water borne in the Littleborough district with unprotected gathering grounds etc., the risk is ever present and the contention that the cost of connecting to the public mains or the provision of equipment in all other cases is too high and cannot be justified when the health of those served by untreated private supplies is at risk daily.

REFUSE COLLECTION AND TRADE WASTE DISPOSAL

The Council's scheme for renewal of defective dustbins continues to function satisfactorily, and the number renewed was 289.

During the year 179 were supplied to new houses built in the district. 37 additional bins supplied to houses with central heating.

The Council resolved that houses provided with central heating subject to a written application from the occupier be provided with an additional dust bin free of charge. On receipt of an application the matter to be referred to the Rating Officer. Thirty-seven applications were received and bins provided.

Collection of domestic refuse has generally been maintained throughout the year, but certain problems arise due to the number of men available during holiday periods. The occasional use of casual labour allowed the service to function almost normally during the periods when the regular staff took their annual leave entitlement.

Collection of trade waste from shops proceeded satisfactorily and the charge of 25/- per premises per annum was continued.

The Council's policy of charging for accepting trade waste etc., on the Council's tip at the rate of 20/- per load was continued. During the year 334 loads were deposited on the Council's Hollingworth Tip, an official receipt being given on each occasion. It is anticipated that there will be an increase in the number of depositions in the coming year.

During October a Karrier Bantam 12 cube yard Refuse Freighter was replaced by an 18 cube yard Karrier Gamecock, fitted with a gravity packing dual tip body.

PETROLEUM ACTS 1928/36

During the year twenty-six renewals of existing licences were granted under the above Acts. One new licence was granted to the Lancashire County Police for the Police Station in Featherstall Road, Littleborough.

CLOSET CONVERSIONS

The Council's policy of encouraging the conversion of obsolete closets to the water carriage system was continued during the year, and in order to further this policy, particularly when pail closets are used in common, the Council continued the payment of grants. Prior to October 1968, the grant aid was up to a maximum of £10. for each unit of accommodation, but from October 1968, the Council resolved to consider contributing up to half the cost of conversions.

During 1968, two (2) pail closets and six (6) waste water closets were converted to the fresh water carriage system.

The number of pail closets in regular use number 101. To abolish certain of these closets, the provision of septic tanks would be necessary, but if improvements up to "standard grant level" were carried out then at the Committee's discretion financial aid of up to £400 may be available to the applicant.

MEAT AND FOOD INSPECTION

Slaughtering is carried out at two slaughterhouses in the district. Both are conducted by wholesale butchers and result in slaughtering in excess of the normal requirements of the district and involve the inspection of meat outside what are normally regarded as office hours, and at weekends.

During the year 1,820 Bulls, Bullocks and Heifers, 1,222 Cows, 34 Calves, 9,911 Sheep and Lambs, 1,061 Pigs and 8 Goats were killed and inspected. The percentage of those affected with diseases or conditions requiring condemnation of some part or organ were 22.08, 38.46, 2.94, 12.62 and 0.66 respectively.

The total weight of meat condemned during the year was 6 tons, 14 cwt. 1 quarter, 11 lbs.

The Handle Hall Slaughterhouse was licenced and operated throughout the year, but due to serious problems arising from high throughputs, and various contraventions the slaughterhouse at Featherstall was licenced from January 1968 to March 31st 1968.

OTHER FOODS

16 tins of Meats, Fruit and Fresh Meat weighing 215 lbs. were also condemned as unfit for human consumption and were disposed of.

FOOD HYGIENE

Visits to food premises in the district continue to raise the general standard.

It is important for all food handlers to appreciate their important position in the community and to realize that by following sound hygiene practice regarding storage of food, proper stock rotation, preparation and serving of food they may prevent certain food borne infections....

PUBLIC CONVENIENCES

Modernisation of the public convenience close by the Fisherman's Inn at Hollingworth Lake, has now been completed.

Vandalism at the public conveniences has continued steadily throughout the year, and the only difference between this year and former years is that the vandals have been forced to use stouter implements to cause damage due to anti vandal measures being taken. Despite such measures as the metal plating of doors and metal panels surrounding water service pipes, a considerable amount of damage has been done.

CIVIC AMENITIES ACT

Between May and December 1968, eighty (80) motor vehicles have been disposed of under the provisions of the above Act.

Several accumulations of rubbish, debris, etc., have also been removed.

GENERAL

In conclusion I should like to thank you for your advice, co-operation and support, also to Councillor C. Ogden, J.P. Chairman of the Health Committee for his support at all times, also to Mr. Calvert, Mr. Howe and Mr. Percival, for their assistance throughout the year.

I am,

Your obedient Servant,

T. BRUCE.

Senior Public Health Inspector.

LANCASHIRE COUNTY COUNCIL

URBAN DISTRICT OF LITTLEBOROUGH

SUMMARY embodying particulars required to be included in the ANNUAL REPORT OF THE MEDICAL OFFICER OF HEALTH for the Year 1968.

1. STATISTICS AND SOCIAL CONDITIONS OF THE AREA

Area in acres (at 31.12.68): 7,855. Population - Census, 1961: 10,514.

Registrar General's estimate of home population, mid-1968 (if known): 10,950.

Number of inhabited dwellings at the end of 1968 according to rate books: 4,457.

Rateable Value: £335,921. Sum represented by penny rate: £1,160.

Social conditions, including the chief industries carried on in the area:

Manufacture of cotton and woollen goods, synthetic fibres, dyeing and finishing, leather tanning, iron turning and founding, oil and fat refining, baking of bread and confectionery, glue manufacture and fibre glass moulding, general joinery and building contractors.

VITAL STATISTICS

Particulars of any unusual or excessive mortality during the year which has received or required comment: None.

Any causes of sickness or invalidity which have been specially noteworthy in the area during the year: None.

Any conditions of occupation or environment which appear to have had a prejudicial effect on health: None.

2. GENERAL PROVISION OF HEALTH SERVICES FOR THE AREA

Public Health Officers of the Local Authority

1. (i) Medical Officer of Health. Dr. A. N. Pickles.
(ii) Qualifications and special diplomas. M.B., Ch.B., D.P.H.
(iii) Is he a whole or part-time officer of the Part.
Local Authority.
(iv) Any other public appointments held by him? Divisional Medical Officer,
Health Division No.13., Medical Officer of Health - Whitworth U.D.C.
Wardle U.D.C., Bacup M.B.
(v) Is he in private practice? No.

2. Public Health Inspector(s):

Name	Qualifications and Special Diplomas.	Whole or part-time as P.H.I.	Other appointments with Local Authority (if any).
T. Bruce.	Certificate P.H.I.E.B. Diploma of R.S.H. Meat and Other Foods. Diploma of R.S.H. for Smoke Inspectors.	Whole	
W. H. Calvert.	Cert. P.H.I.E.B. Diploma of R.S.H. Meat and Other Foods.	Whole	

3. Other Public Health Officers: None.

Local Legislation.

4. Alterations during year to local legislation (including bye-laws) in force in the district: None.

National Assistance Acts, 1948 and 1951

5. (i) No. of applications for removal made during the year under Section 47: Nil.
 (ii) Number of orders made: None.
 (iii) Circumstances of each case: -
 (iv) Comments on operation of the Section: -

5. SANITARY CIRCUMSTANCES OF THE AREA

1. Water Supply. Rochdale Corporation - and West Pennine Water Board.
- (i) Statutory water undertaker:
- (ii) If any re-grouping during year give constitution and date of establishment of new water board: West Pennine Water Board. April, 1968.
- (iii) Type of supply (e.g. upland surface, deep wells, river, etc.): Upland Surface.
- (iv) Give particulars of any new sources of public supply acquired during the year: None.

 supply where treatment is installed. Bacteriological examinations. 4.
 Chemical analyses. -.
- Private supplies.
 Bacteriological examinations. -.
 Chemical analyses. -.
- (ix) Action taken by the local authority in respect of any form of contamination of
- (a) public supplies Brownish discolouration of supply particularly to upper parts of district due to iron deposits, etc. Discussions with undertakers result in flushing of mains and produce short term relief, but major works are required to permanently provide water of good appearance.
- (b) private supplies Persuade and/or compel connection to mains where possible. If connection to mains impossible, advise re filtration (i.e. Berkefeld filters) by pumps and filters.
- (x) What action is taken in the case of new dwellings built where mains water supply is not available to ensure that the water supply is satisfactory in quality and quantity?
 No action necessary.
- (xi) Any liability to plumbo-solvent action?
 (a) Public supplies. None.
 (b) Private supplies. Certain ones.
- (xii) If so, give facts as to contamination by lead and the precautions taken by the local authority or statutory water undertaker, including use of special material for pipes.
 Where low Ph indicated by sampling of private supplies efforts are being made to bring about treatment of raw water along with work at (x) above, but wherever possible seek connection with public main.
- (xiii) What is fluoride content of mains supply?
 Natural. Very small indeed.
 Artificial. Supply not fluoridated.
-

2. Drainage and Sewerage -

- (i) Give particulars of sewage disposal. Sewage Disposal Works at Lower Mill, Littleborough. Precipitation and filtration.
- (ii) Give details of any new works of sewerage and sewage disposal and of any additions undertaken during the year. None.
- (iii) No. of dwelling connected during the year to:-
- | | | |
|----------------------|---------------------|------|
| (a) Sewerage system. | New dwellings. | 179. |
| | Existing dwellings. | 5. |
| (b) Septic tanks. | New dwellings. | -. |
| | Existing dwellings. | 6. |
| (c) Cesspools. | New dwellings. | -. |
| | Existing dwellings. | -. |
- (iv) Areas of townships without proper sewerage system and reasons therefor. Parts of Shore, Hollingworth and low lying and outlying parts of district; distance from existing sewerage system prohibitive or below level of existing sewer.

3. Sanitary accommodation at end of 1968:-

(i)	No. of privy middens.	Nil.
(ii)	No. of closets attached to these middens.	Nil.
(iii)	No. of pail closets.	101.
(iv)	No. of dry aspits (excluding middens)	Nil.
(v)	No. of movable dustbins, etc. after a survey.	5,368.
(vi)	No. of trough closets.	Nil.
(vii)	No. of waste water closets.	111.
(viii)	No. of fresh water closets.	4,237.
(ix)	Conversions during 1968.	
(a)	No. of privy closets - To fresh w.c.'s.	Nil.
	To pails, etc.	Nil.
(b)	No. of pail closets to fresh w.c.'s.	2.
(c)	No. of trough closets to fresh w.c.'s.	Nil.
(d)	No. of waste w.c.'s to fresh w.c.'s.	6.
(e)	No. of premises at which movable dustbins, etc., were substituted for fixed receptacles.	Nil.
(x)	No. of dwellings NOT on water carriage system.	102.

4. Public Cleansing:-

(i) Renewal of movable dustbins, etc., to dwellings effected -

(a) out of rate fund.

(ii) No. of premises at which disposable sacks were in use at end of year.
(a) 133.

Give brief particulars of the arrangements for -

- (iii) (a) Refuse collection. House refuse collected by 3 vehicles engaged full time, (three end loaders). Trade refuse and removal of discarded furniture removed by above refuse freighters and/or Council lorry. Night soil collected by mechanical night soil and gully emptier.
- (b) Refuse disposal. House and trade refuse. Tip situate at Hollingworth. Night soil. Emptied direct into sewer.
- (c) Cesspool emptying. As requested by owners.

5. Total inspections made for all purposes by Public Health Inspectors during 1968.

(i)	Premises visited.	No. of premises visited	2,408.
		No. of visits -	3,694.
(ii)	Defects or nuisances.	No. discovered.	234.
		No. abated.	212.
(iii)	No. of notices served.	Informal.	62.
		Statutory.	26.
(iv)	Legal proceedings.	No.	-
		Result.	-

6. Offices, Shops and Railway Premises Act, 1963 -

	Class of premises				
	Offices	Retail Shops	Wholesale Shops, Warehouses.	Catering establishments open to public canteens.	Fuel Storage
(i) No. of registered premises at end of year.	13	37	1	10	-
(ii) No. of registered premises receiving a general certificate of fitness.	13	37	1	10	-

	Class of premises				
	Offices	Retail Shops.	Wholesale Shops, Warehouses.	Catering Establishments open to public.	Fuel Storage canteens.
(iii) No. of exemptions current at end of year..					
Space (S.5.(2).)	Nil	Nil	Nil	Nil	Nil
Temperature (S.6.).	-	-	-	-	-
Sanitary conveniences (S.9).	-	-	-	-	-
Washing facilities (S.10)	-	-	-	-	-

- (iv) No. of visits of all kinds by inspectors to registered premises. 118
 (v) Details of any prosecutions during year. Nil.
-

7. Clean Air Act, 1956:-

- (i) Smoke Control Areas -
- (a) No. of orders submitted to Ministry during year. Nil.
 - (b) No. of orders confirmed by Ministry during year. Nil.
 - (c) Total No. of orders in force at end of year. Nil.
 - (d) No. of houses and other buildings involved in (a) in (b) and in (c) Nil.
 - (e) Remarks (particulars of exempted premises, if any etc.) Nil.
- (ii) Any special action taken with regard to burning spoil banks, refuse tips, etc. None necessary.
- (iii) Particulars of any co-operative action with industry:-
- (a) Regional. None.
 - (b) District. The hand fired boilers still operating continue to present problems and contraventions are almost impossible to avoid.
- (iv) Any other special action taken with regard to atmospheric pollution. Membership of South East Lancashire and North Cheshire, Consultative Committee. Two (2) Lead Dioxide instruments in use.
- (v) Number of legal proceedings and results. Nil.
-

8. Noise Abatement Act, 1960 -

- (i) No. of complaints investigated. 19
 (ii) Details of formal action taken. No formal action necessary.
-

9. Swimming Baths and Pools -

- (i) Brief particulars (state whether (a) public, or (b) privately-owned but open to public. None in district.
 - (ii) Source of water used for filling. -
 - (iii) Method of treatment. -
 - (iv) If continuous filtration, state turnover period. -
 - (v) No. of samples of water taken for examination. (a) Bacteriological -
 (b) Chemical. -
-

10. Prevention of Damage by Pests Act, 1949 -

- (i) No. of rodent operatives employed -
- | |
|---------------------|
| (a) Full time. Nil. |
| (b) Part-time. One. |

- (ii) Properties other than sewers -

TYPE OF PROPERTY	
NON AGRICULTURAL	AGRICULTURAL
4912	78
220	3
109	1
111	2
1100	15
545	5
555	10

- (iii) Were any sewers infested by rats during the year? Yes.

(iv) Other action or points of interest. To enlist the aid of residents in rodent control measures, posters have been produced and affixed to the side of refuse freighters and thereby taken weekly into every street in the district.

(v) Particulars of other infestations under the Act (as defined in Sect. 28.) Nil.

The use of Warfarin continues to be effective against rats but it is no longer used against mice. Mice infestations have been effectively dealt with by using the rodenticide "Alphakil".

11. Disinfestation - Action taken during year:

- | | | |
|-------|--|---|
| (i) | No. of dwellings found to be infested. | (a) Council dwellings. 6. |
| (ii) | No. of dwellings disinfested. | (b) Other dwellings. 6. |
| (iii) | Methods employed for ensuring disinfection of belongings of tenants before removal to council dwellings. | (a) Council dwellings. 5.
(b) Other dwellings. 6.
Nil. Arrangements would have to be made with a contractor for such a service for furniture and use of nearby steam disinfecter for other items. There is no evidence of infestations of this nature for over six years. |
| (iv) | Is work of disinfection carried out by local authority or by a contractor? | Other than in (iii) by Local Authority with satisfactory results. |

12. Schools:-

- | | | |
|------|---|------|
| (i) | Total No. of schools in district at end of year. | 8. |
| (ii) | Sanitary conditions of schools at end of year - | |
| (a) | No. of schools with unsatisfactory yard surfaces. | Nil. |
| (b) | Sanitary accommodation - No. of schools with: | |
| (1) | Fresh water closets only. | 8. |
| (2) | Waste water closets only. | Nil. |
| (3) | Trough closets only. | Nil. |
| (4) | Pail closets only. | Nil. |
| (5) | Privy closets only. | Nil. |
| (6) | Other (state type). | Nil. |
| (c) | Drainage - No. of schools with drainage to - | |
| (1) | Public sewers. | 8. |
| (2) | Private treatment works. | Nil. |
| (d) | Refuse disposal - No. of schools with - | |
| (1) | Dustbins. | 8. |
| (2) | Dry ash pits. | Nil. |
| (e) | Water supply - No. of schools supplied from - | |
| (1) | Public mains. | 8. |
| (2) | Private supplies. | Nil. |

(3) Distance of each school in (e) from nearest public main -.

(4) No. of private supplies (e)(2) considered unsatisfactory -.

(f) No. of schools where facilities are considered unsatisfactory for

- (1) Washing. Nil.
- (2) Drinking. Nil.

13. Offensive Trades:-

- (i) No. of premises. Two. (ii) Type of offensive trades. Glue Maker.
Leather Tanners and Dressers.
(iii) Any special action taken. No.

14. Prescribed particulars on the administration of the Factories Act, 1961, during the year 1968.

- (a) Part I of the Act:

1. Inspections for the purposes of provisions as to health (including inspections made by the Public Health Inspectors).

Premises.	Number on Register	Number of		
		Inspections	Written Notices	Occupiers Prosecuted
(i) Factories in which sections 1, 2, 3, 4 and 6 are to be en- forced by Local Authorities.	5	Nil	Nil.	Nil.
(ii) Factories not included in (i) in which section 7 is en- forced by the Local Authority.	83	9.	Nil.	Nil.
(iii) Other premises in which section 7 is enforced by the Local Auth- ority (excluding outworkers' premises).	-	-	-	-
Total.	88	9	Nil.	Nil.

2. Cases in which defects were found.

(if defects are discovered at the premises on two, three or more separate occasions they should be reckoned at two, three or more "cases").

Particulars	Number of cases in which defects were found.				Number of cases in which prosecutions were instituted.
	Found	Remedied	Referred

Other offences against the Act (not including offences relating to out-work.)	-	-	-	-	-

Part VIII of the Act - Outwork:

Sections 133 and 134. Nil.

15. Rag flock and Other Filling Materials Act, 1951.

- (1) No. of registered premises at end of year on which rag flock or other filling materials were used in manufacture of bedding, toys, etc. 1.
 - (ii) No. of licensed premises at end of year on which rag flock was -
 - (a) manufactured, or manufactured and stored. Nil.
 - (b) stored only. Nil. - (iii) No. of inspections during year. Nil.
 - (iv) Samples taken during year. Nil.
-

16. What are the chief sanitary requirements of the district?

Extensions of sewers to outlying parts of district.

4. HOUSING

(a) Statistics

	<u>Houses.</u>	<u>Flats.</u>
1. Number of new dwellings erected during the year:-		
(i) By the local authority. 80	80	-
(ii) By other local authorities. -	-	-
(iii) By other bodies or persons. 99	99	-
2. Total No. of dwellings owned by any local authority, existing in district at end of year. 936.	936	
3. Inspections of dwellings during the year:-		
(i) (a) Total No. of dwellings inspected formally or informally for housing defects (under Public Health or Housing Acts). 215	215	
(b) No. of inspections, formal or informal, made for the purpose. 568	568	
(c) No. of dwellings in (a) above found to be not in all respects reasonably fit for human habitation but capable of being rendered fit. 151	151	
(ii) Total No. of dwellings existing at end of year, occupied or not, which were unfit for human habitation and not capable at reasonable expense of being rendered fit and in respect of which -		
(a) Demolition, Clearance or Closing Orders have been made (at any time). 35	35	
(b) Demolition, Clearance or Closing Orders have not yet been made. Nil.	Nil.	

4. Houses Demolished:-

In or Adjoining Clearance Areas:

Number	Displaced during year from houses to be demolished or closed.	
	Persons	Families
(i) Houses unfit for human habitation. 23	69	23
(ii) Houses included by reason of bad arrangement etc. Nil.		
(iii) Houses on land acquired under S.43 (2), Housing Act, 1957. Nil.		
Not in or Adjoining Clearance Areas:		
(iv) As a result of formal or informal procedure under S.16 or S.17(1). Housing Act 1957. Nil.		
(v) Local Authority owned houses certified unfit by the Medical Officer of Health. Nil.		
(vi) Houses unfit for human habitation where action has been taken under local Acts. Nil.		
(vii) Unfit houses included in Unfitness Orders. Nil.		

5. Unfit Houses Closed:

- (i) Under S. 16(4), S.17(1) and S.35
(1) Housing Act, 1957, and S.26
Housing Act 1961.
- (ii) Under S.17(3) and S.26, Housing
Act 1957.
- (iii) Parts of buildings closed under
S.18, Housing Act, 1957.

Number	Displaced during year from houses to be demolished or closed.	
	Persons	Families
1	1	1
Nil	Nil.	
Nil.	Nil.	

6. Unfit Houses Made Fit:

- | | <u>Number</u> |
|--|---------------|
| (i) By owner after informal action by local authority. | 12 |
| (ii) After formal notice under S. 9 and S. 16, Housing
Act 1957: | |
| (a) by owner. | 1 |
| (b) by local authority. | Nil. |
| (iii) After formal notice under Public Health Acts. | 12 |
| (iv) After modification or revocation of a clearance
order under S. 21, Housing Act 1961. | Nil. |
| (v) After determination of a demolition order under
S.24, Housing Act 1957. | Nil. |
| (vi) After determination of a closing order under S. 27
Housing Act, 1961. | Nil. |

7. Unfit Houses in Temporary Use (Housing Act, 1957):

Position at end of year:

- (i) Retained for temporary accommoda-
tion -
 - (a) Under Section 48.
 - (b) Under S. 17(2)
 - (c) Under S. 46
- (ii) Licensed for temporary occupation
under S. 34 or S. 53.

Number of Houses. (1)	Number of separate dwellings contained in column (1). (2)
-	-
-	-
-	-
-	-

8. Purchase of Houses by Agreement:

Number of Houses (1)	Number of occupants of houses in Col (1) (2)
-	-

Houses in clearance areas other
than those included in confirmed
orders or compulsory purchase orders.

9. Housing Act, 1949, and Housing (Financial Provisions) Act, 1958 - Improvements Grants etc.

Action during year:

- (i) Submitted by private individuals to local authority.
- (ii) approved by local authority.
- (iii) Submitted by local authority to Ministry.
- (iv) Finally approved by Ministry.
- (v) Work completed.
- (vi) Additional separate dwellings included in (v) above.
- (vii) Any other action taken under the Acts (give brief particulars). None.

No. of dwelling houses or other buildings affected in schemes of:	
Private bodies or individuals.	Local Authority

11. Lancashire County Council (General Powers) Act 1968. S.17. Particulars of any action during year. None.

12. Housing Act, 1957, S.92. Particulars of any action during year. None.

(b) Housing Conditions

13. Approximate number of:

- (i) back-to-back houses. 494
- (ii) back-to-earth houses. 45
- (iii) other houses without through ventilation: Nil.

14. Movable dwellings and camping sites (other than H.M. Forces):

- (i) No. of sites in the area which were used for camping purposes during 1967. 1
- (ii) No. of licences in force at end of 1967 issued under Section 269 of the Public Health Act, 1936, in respect of:
 - (a) Sites. Nil.
 - (b) Individual movable dwellings. Nil.
- (iii) No. of caravans permanently occupied. 25.
- (iv) Any action under Part IV of Lancashire County Council (General Powers) Act, 1951. Nil.
- (v) No. of site licences issued under Caravan Sites and Control of Development Act, 1960, and in operation at end of year. 2.
- (vi) No. of caravans concerned in (v) above. 30.

- (vii) Has Council adopted Model Standards issued by Ministry of Housing and Local Government for sites in respect of:
 (a) Permanent residential caravan sites? Yes
 (b) Holiday caravan sites? -
- (viii) Any other special action taken by local authority with regard to tents, vans, sheds, etc. Nil.
-

15. Common Lodging-houses:
 No. on Register - Nil.

16. Underground Rooms:
 (i) No.
 (ii) Are any regulations in force? -

17. Canal Boats:
 (i) Number inspected - Nil.
 (ii) Number of infringements of Acts - Nil.

18. Sufficiency of supply of houses:
 (i) Give some indication of extent of any shortage.
 Shortage of single bedroom accommodation required for people living in houses which lack modern amenities.
 (ii) Particulars of any local authority housing scheme:
 (a) in hand at end of year: Nil.
 (b) contemplated: provision of aged persons accommodation.
 28 Flatlets and 2 Bedroom Warden Accommodation plus communal facilities.
 (iii) Any special difficulties in the way of providing suitable sites for new houses: Yes. Objection from Hersey & Weaver River Board to new development due to inadequate sewage disposal works.

19. Fitness of houses:
 (i) No. of houses which have not a satisfactory internal water supply: 85
 (ii) No. of houses which have no separate closet accommodation (approximate only) : 49

5. INSPECTION AND SUPERVISION OF FOOD

Milk Supply - Action taken with regard to the administration of the Milk and Dairies Acts and Regulations.

1. The Milk (Special Designation) Regulations, 1963-5 (Food and Drugs Authorities only). Not applicable.
- (i) No. of dealers' licences in force at end of year in respect of:
 (a) Pasteurising plant.
 (b) Sterilising plant.
 (c) Ultra heat treatment plant.
 (d) Pre-packed milk.
 (e) Untreated milk.
- (ii) By virtue of (i) above, No. of dealers at end of year authorised to deal in milk of the following designations -
 (a) Untreated.
 (b) Pasteurised.
 (c) Sterilised.
 (d) Ultra heat treated.
- (iii) Any refusal or revocation of licences for designated milk, with reason for the refusal or revocation.

2. Action taken by local authority in relation to samples taken in the district (All Authorities):

(i) Samples for Biological Examination -

Results:	Total No. of samples submitted	Results		
		Positive	Negative	No result
(a) Tuberculosis.	-	-	-	-
(b) Brucellosis - Ring Test	58	23	35	-
(c) Brucellosis - Culture Test	-	7	15	-
(d) Brucellosis Biological Test	-	-	-	-

(ii) Samples for Statutory Tests:

Raw Milk.	No. of samples	Results		
		Satisfactory	Unsatisfactory	Void samples
(a) Methylene Blue Test.	-	-	-	-
Heat Treated Milk:				
(b) Methylene Blue Test.	-	-	-	-
(c) Phosphatase Test.	-	-	-	-
(d) Turbidity Test.	-	-	-	-
(e) Colony Count Test.	-	-	-	-

3. Brucella abortus - action taken in respect of positive samples - Milk supply sent for Pasteurisation.

4. Action taken under Regulation 19 of the Milk and Dairies (General) Regulations, 1959.

Nil.

5. Action taken under Regulation 20 of the Milk and Dairies (General) Regulations, 1959 (other than that at (3) above).

Nil.

6. Action taken under Public Health (Prevention of Tuberculosis) Regulations, 1925.

Nil.

Meat and other foods (excluding adulteration) -

7. Details of any legal proceedings taken with regard to the preparation, storage, handling or sale of food.

Nil.

8. Liquid Egg (Pasteurisation) Regulations, 1963 -

Nil.

- (i) No. of egg pasteurisation plants in district at end of year.

Nil.

- (ii) No. of samples of liquid egg submitted to Apha-Amylase Test and their results.

Nil.

9. (i) Is a public abattoir in use in the district.

No.

- (ii) Total No. of private slaughterhouses licensed by local authority at end of year.

1

- (iii) No. of private slaughterhouses licensed by local authority at end of year for slaughter of horses.

Nil.

- (iv) Action taken with regard to -

- (a) Ante mortem inspection of animals. Examination of livestock in lairages prior to slaughter.

- (b) Post-mortem inspection of animals. All carcasses inspected, after slaughter by qualified Meat Inspectors.

- (v) Details of control, under the Meat Inspection (Amendment) Regulations, over times of slaughter. The Council have passed a Resolution regarding slaughtering carried out at weekend to the effect that slaughtering is carried out on Saturday morning up to 12 a.m. only and no slaughtering to be carried out on Sundays.

10. Carcasses inspected and condemned within the district:

	Cattle excluding Cows	Cows	Calves	Sheep and Lambs	Pigs	Diseases
Number killed (if known).	1820	1222	34	9911	1061	-

Tuberculosis only -						
Whole carcasses condemned.	-	-	-	-	-	-
Carcasses of which some part or organ was condemned.	-	-	-	-	-	-
Percentage of number inspected affected with Tuberculosis.	-	-	-	-	-	-
Cysticercosis -						
Carcasses of which some part or organ was condemned.	-	-	-	-	-	-
Carcasses submitted to treatment by refrigeration.	-	1	-	-	-	-
Generalised and totally condemned.	-	-	-	-	-	-

11. Poultry inspection:

- (i) No. of poultry processing premises within district at end of 1968. Nil.
- (ii) No. of visits made to these premises during year. Nil.
- (iii) Total No. of birds processed during the year. Nil.
- (iv) Types of birds processed.
 - (a) Turkeys. -
 - (b) Ducks. -
 - (c) Hens. -
 - (d) Broilers. -
 - (e) Capons. -
 - (f) etc. Others (Specify) -
- (v) No. of birds rejected as unfit for human consumption. -
- (vi) Weight of poultry condemned as unfit for human consumption. -
- (vii) Comments on poultry processing and inspection. -

12. By what method(s) was disposal of any unsound food effected?

- (i) Carcase meat - Sale by owners to firms dealing solely with this type of commodity.
- (ii) Other foods - Destruction by burning or buried on the Council's Refuse Tip.

13. Food Hygience (General) Regulations, 1960.

Type of business	(a) No. of premises	(b) No. of premises fitted to comply with Regulation 16. (Wash-hand basins).	(c) No. of premises to which Regul- ation 19 applies (Sinks)	(d) No. of prem- ises fitted to comply with Regul- ation 19.
(i) Greengrocers and provision dealers.	55	40	55	55
(ii) Greengrocers & fruit erers (including those selling wet fish, game etc.)	6	6	6	6
(iii) Fishmongers (including those selling poultry, game etc.)	-	-	-	-
(iv) Meat shops (butchers, purveyors of cooked and preserved meats, tripe etc.)	14	14	14	14

Type of business	(a) No. of premises	(b) No. of premises fitted to comply with Regulation 16. (Wash-hand basins).	(c) No. of premises to which Regulation 19 applies (Sinks).	(d) No. of premises fitted to comply with Regulation 19.
(v) Bakers and/or confectioners.	8	8	8	8
(vi) Fried fish shops.	12	12	12	12
(vii) Shops selling mainly sugar confectionery, minerals, ice-cream etc.	10	10	10	10
(viii) Licensed premises, clubs canteens, restaurants, cafes, snack bars and similar catering establishments.	42	42	42	42
(ix) Others.	-	-	-	-

14. No. of food premises, by type, registered under Section 16 of the Food & Drugs Act, 1955, the Lancashire County Council Acts or other local Acts (give separately the No. of premises registered for manufacture of ice-cream) -

Type of business	Legislation under which registration effected	No. of registered at end of year.	No. of inspections of registered premises during year
Ice Cream Premises.	Food and Drugs Act 1955.	55	56

15. Lancashire County Council (General Powers) Acts - No. of hawkers registered by Local authority. None.

16. Action taken under the Ice-Cream (Heat Treatment, etc) Regulations 1955 and 1963 - No. premises registered for the manufacture of Ice-Cream.

17. Adulteration, etc., (Food and Drugs Authorities only). Not applicable.

18. Food poisoning:

- (i) Total notifications (corrected) during year as returned on quarterly Forms 118D and 118E. Nil.
- (ii) Total number of additional (i.e. un-notified) cases ascertained as a result of investigations into notified cases. Nil.
- (iii) Total number of outbreaks being regarded as the whole of the cases, being more than one in number, either probably or certainly derived from a single contaminating or infecting source. Nil.
- (iv) Detail here, separately, particulars of each outbreak included in (iii) - Nil.

No. of cases	No. of deaths	Organism or other agent responsible	Vehicle of Infection.	Place where contaminated food was consumed.
Notified Ascertained but not notified.				
- -	-	-	-	-

(v) Observations on any points of interest arising in connection with any of the above outbreaks or any single case (in particular, please state if related to any outbreak in any other district). Nil.

6. PREVALENCE OF AND CONTROL OVER INFECTIONOUS DISEASES

(1) CASES OF INFECTIOUS DISEASES NOTIFIED DURING THE YEAR 1968.
 (after corrections subsequently made either by the notifying medical practitioner or
 by the Medical Superintendent of the Infectious Diseases Hospital)

Notifiable Diseases.	Total Cases Notified									Total Deaths.
	Age Periods - Years.									
Total cases at all ages.	0-	1-	2-	3-	4-	5-	10-	15-	25 and Over.	Age Unknown.
Scarlet fever.										
Whooping cough.										
Acute poliomyelitis - Paralytic.										
- Non-paralytic.										
Measles (excluding rubella).	1	1								
Dysentery.	2									
Meningococcal infection.										
Optalmia neonatorum.										
Viral meningitis.	1									
	0-		5-		15-		45-		65 and over	Age unknown
Acute pneumonia (prim. and infl'zal).										
Smallpox.										
Acute exanthemalitis - Infective.										
- Post-infectious.										
Enteric or typhoid fever.										
Paratyphoid fevers.										
Erysipelas.										
Food poisoning - Salmonella.										
Tuberculosis - Respiratory.										
- Meninges and C.N.S.										
- Other.										
Puerperal pyrexia.										
Other notifiable diseases (specify).	1	1								

2. Review the prevalence of notifiable infectious diseases during the year, and give any noteworthy facts as to the source or spread of infection (non-notifiable acute infectious diseases should also be reported upon so far as available information enables this to be done).

One case of Salmonella occurred in July, one case of Whooping Cough and two cases of Measles occurred in August and one case of Viral Meningitis occurred in November.

3. State whether the following diseases were compulsorily notifiable in your district during 1968 by order of the District Council, and, if so, state for what period (see Table on page 26).

(i)	Diarrhoea (under 2 years)	-
(ii)	Chicken-pox.	-
(iii)	Any others.	-
(iv)	Observations.	-

4. Disinfection after infectious diseases:

(i)	No. of houses disinfected during year:	Nil.
(ii)	Method (state disinfectant used):	Nil.
(iii)	Apparatus used for disinfecting clothing, bedding, etc.	Nil. (steam or otherwise).
(iv)	Where is apparatus situated?	Council Offices, Littleborough.

5. (i) Has any action been taken under Section 172, Public Health Act, 1936? No.
(ii) If so, No. of applications for Orders for compulsory removal to hospital. Nil.
(iii) No. of cases in which Orders were granted. -
(iv) Observations. -

Signed,

A. N. PICKLES.

Medical Officer of Health.
